2009 Swift Sundance 5 berth 4 Belted motorhome. This motorhome is a very low mileage example in excellent condition both internally and externally. With a large overcab bed and a double dinette which converts into a double and a full size bench seat on the side which can be used as a single it really does offer a lot in a compact sized van. The van offers all your modern amenities. Why not come and view this van for yourself before it sells as I cannot see this van being around for long.
